WATER RIGHTS
SALT LAKE

ATTENTION: STATE WATER ENGINEER

Dear Sirs:

I am writing on behalf of Turnbow Ranching Company who has ownership of farm ground in Hanna, Utah. With the dry years we have experienced lately, especially the last year, we suffered and had losses of pasture and hay due to lack of water.

The 4 acre foot duty that is imposed on the Duchesne River severely effects our property more so than anyone else in the valley and we wish to be on record that we oppose this duty and request that we be allowed our full water rights consistent with Certificate 192.

We understand that this is established through the courts each year and request that this letter be made part of the court records.

Thank you,

Parley Turnbow
Turnbow Ranching Company
